Overview

Establishing a new mental/behavioral health facility and expansion of its services are critical to address the behavioral healthcare needs include mental health in American Samoa. The negative impacts of Covid-19 and the public health emergency declaration have exacerbated problems related to mental health which necessitates the urgency to expand American Samoa’s response capabilities for mental/behavioral services and facilities in American Samoa. The present mental/behavioral health facilities and services do not meet the requirements to be fully operational lacking adequate equipment, supplies and certified doctors and personnel to address the impact of the border closure and limited access to these services. Investments in mental/behavioral health services will help enhance healthcare capacity, improve disparities with public health outcomes, address pandemic operational needs and support underserved areas with access to mental health and behavioral services. Covid-19 pandemic has created negative results with many experiencing trauma, depression and anxiety. The border closure and subsequent community restrictions has added to increases in drug abuse and instances of sexual assault in the territory. Social and community problems have increased due to isolation, family separation, disruption of normal activities, loneliness and being stranded off-island during border shutdown. ARPA funds directed toward a new mental/behavioral health facility and expansion of services will address the desperate needs of the territory as exacerbated by the pandemic. This will ensure the territory continue to remain as a stable, peaceful and healthy community.

PROJECT BACKGROUND

The COVID-19 Public Health Emergency has had a great impact on American Samoa’s public health infrastructure and services, as well as the local economy. The projects identified in this document are to be funded using American Rescue Plan Act (ARPA) funds from the Federal Government in accordance with the requirements of the Act.

American Samoa remains the only part of the United States of America and its Territories that has been blessed with zero cases of locally transmitted COVID-19 virus. While we are grateful for this blessing, it was not accidental that American Samoa has remained COVID-19 free. It required tremendous sacrifice by the people of American Samoa to keep their loved ones safe and protected. We are fortunate to have the support and federal assistance of the various COVID-19 relief and recovery funds to help meet the challenges as a result of the COVID-19 pandemic and the public health emergency declaration.

The territory lacks a fully equipped and operational mental health facility with the needed experts and personnel capable of providing the necessary services, programs and treatment. This includes the correct assessment, diagnosis, treatment and prescription of medications for those suffering from mental and behavioral health illness which have been exacerbated due to Covid-19. American Samoa has encountered hardships and challenges with an increase in social problems, violence and criminal activities at the start and during the pandemic.
newspapers have reported a surge in suicide rates among the youth, domestic and sexual abuse violence cases, and increase in alcohol and substance use. The problem is further amplified because there is no drug rehabilitation center and thus poses a great harm and serious risk to this small island community. Families are being torn apart and destroyed as well as communities being ravaged by increase in violence and criminal acts much are attributed to alcohol and drug abuse. The negative impacts of Covid-19 have made it necessary and a priority for American Samoa to build a new mental health facility and expand its services and programs to be able to adequately address the needs of the territory. This new facility and expansion of services will improve access and capacity for underserved and disadvantageous population areas.

**KEY STAKEHOLDERS**

New Mental Health Facility and Services project to be developed and designed by the Department Health (DOH) management with all key stakeholder(s) input and contribution

- DOH
- LBJ
- DHSS
- Medicaid
- Treasury
- Other branches of Government (Legislative representation)
- Non-profit
- NGO’s
- Healthcare professionals
- Private sector representation
- ARPA Oversight Office

(a) **COMMUNITY ENGAGEMENT**

Community engagement is an essential aspect of ARPA funded projects. The intent of the US Treasury in fostering public participation is to maintain transparency and provide opportunities for feedback to ensure that funds are used in the most beneficial manner.

In keeping with the intent of the US Treasury, the American Samoa ARPA Oversight Office has adopted the following notice and comment timeline for proposed projects:

- A Notice of Proposed Project will be published online, in local newspapers, and via television or radio broadcasts. The Notice will specify that there will be thirty (30) days for the public to provide comment either in writing or by attendance at scheduled public hearings.
- Concurrent to the publication of the Notice, a draft proposal and scope of work will be published on the ARPA website for the public to review.
- General meetings with the public will be scheduled and publicized within the thirty (30) days Notice period. Email comments will also be accepted.
• Presentations to the Legislature will be conducted during the Notice period, as needed.
• At the close of the public comment period, the agency will have 20 days to revise the project as appropriate and submit the Final Draft to the ARPA Oversight Office.
• The Final Draft of the Project will be posted for public review once completed and certified by the ARPA Oversight Office.

It is the responsibility of the agencies in charge to publicize notices and adhere to the stated timelines. For the Infrastructure broadband project, the anticipated date for the Notice of Proposed Project will be __________, 2021.

(b) TIMELINE ON PROJECT LAUNCH

ARPA Funds are required by federal statute to be encumbered by December 31, 2024 and spent by December 31, 2026. This mandate makes the need for a definite timeline for completion of projects of critical importance.

The infrastructure broadband Project must identify the proposed start date, the completion dates of each phase of the project, inclusion of any notice/bid periods for procurement purposes, and an estimated date of completion, along with any other dates relevant to the project progress.

(c) SCOPE of Project (New Mental Health Facility and Services)

Each proposed project must be submitted to the ARPA Office with a cover letter addressed to the Executive Director. Submittals must include the proposed plan as detailed below. ARPA will review of eligibility and compliance to the American Samoa ARPA Spending Plan.

Once approved, an award certified letter will be provided verifying the project description and project lead.

Project Leads (Department of Health) must provide the following:
  1. Project Description and/or Business Plan
  2. Completed Eligibility Analysis
  3. Scope of Work
  4. Implementation Plan & Timeline
  5. Proposed itemized budget
  6. Project Lead

Define scope of project based on response to Covid-19 pandemic and the public health emergency declaration:

• Project must meet statutory requirements for eligibility:
  1. Project should include services that meet behavioral health needs include mental health exacerbated by Covid-19 such as the following:
     a. Mental health treatment
b. Substance misuse treatment
c. Hotlines or warmlines
d. Crisis intervention
e. Overdose prevention
f. Infectious disease prevention
g. Services or outreach promoting access to physical or behavioral health primary care and preventative medicine

2. Project must be in response to disease itself or harmful consequences of the economic disruptions exacerbated by Covid-19

3. Project should meet pandemic operational needs to implement pandemic mitigation tactics

4. Mental health services should include those for individuals experiencing trauma exacerbated by Covid-19

5. Project should enhance health care capacity

6. Programs and services should include substance use disorder

7. Programs and services should deliver evidence-based psychotherapy, crisis support services, medication for opioid use disorder and/or recovery support

8. Programs and services should include trauma recovery services for crime victims

9. Programs and services should address disparities in public health outcomes exacerbated by the pandemic

10. Project should improve ventilation in health care settings

11. Project should support underserved areas and vulnerable populations to access medical or public health services

12. Project must promote equity in the underserved, marginalized and disadvantageous areas in the territory

- Describe the project and how it responds and meets behavioral health needs include mental health as exacerbated by the pandemic in the territory

- Describe the programs, services, and interventions and how they will address behavioral health needs include mental health as exacerbated by Covid-19 in the community. Please see #1 (a to g) above for eligibility use.
Questions to consider to ensure project, services and programs meet eligibility:

- Does this project enhance health care capacity?
- Does the project meet pandemic operational needs to implement pandemic mitigation tactics?
- Are the mental health services include those for individuals experiencing trauma exacerbated by Covid-19?
- Are there any programs and services for evidence-based psychotherapy, crisis support services, medication for opioid use disorder and/or recovery support?
- Are there any programs or services to address substance use disorder?
- Does this project address disparities in public health outcomes?
- Does this project support underserved areas and vulnerable populations to access mental health services?

Proposed Budget

Your budget plays a key role in putting your strategy into action in the effectiveness of resources and achieving overall project goals within specified timelines. Your overall budgeting allocation should align with the ASG BUD202 primes format and itemized further to connect to your project’s plan.

Your itemized budget should support and outline your projects phases or goals and include all related activities during the project’s life and its expenses as well as any income if applicable. It should also highlight limitations and constraints your office predicts and allocate some funds towards this to mitigate these risks and budget for unforeseeable situations.

(d) Conflicts of Interest

ARPA requires that a conflict of interest policy must be maintained pursuant to 2 C.F.R. § 200.318(c) and such policy is applicable to each activity funded under this award. Disclosure in writing must be provided for any potential conflict of interest affecting the award in accordance with 2 C.F.R. § 200.112
(e) Adherence to ASG Procurement Process

ARPA funds are subject to the Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (2 CFR Part 200). Specifically, these regulations require ASG to follow local procurement laws in using these funds. 2 CFR 200.317. The lead agency for each project (in the case of the new mental health facility and services, this will be DOH) will work in concert within its established Procurement procedures to ensure that all procedures and requirements are followed and documented. All agencies are reminded that ARPA funds will be subject to federal audits.

<table>
<thead>
<tr>
<th>CLAUSE</th>
<th>REQUIRED BY AMERICAN SAMOA ADMINISTRATIVE CODE</th>
<th>APPLIES TO</th>
</tr>
</thead>
<tbody>
<tr>
<td>EQUAL OPPORTUNITY</td>
<td>10.0250(d)(3), 10.0260(c)</td>
<td>All Contracts in excess of $10,000</td>
</tr>
<tr>
<td>DAVIS BACON ACT</td>
<td>10.0250(d)(5)</td>
<td>Construction contracts that exceed $2,000 and when required by federal grant program legislation</td>
</tr>
<tr>
<td>CONTRACT WORK HOURS AND SAFETY STANDARDS ACT</td>
<td>10.0250(D)(6); 10.0260(D)</td>
<td>Construction contracts in excess of $2,000 or contracts in excess of $2,500 which involve employment of mechanics or laborers</td>
</tr>
<tr>
<td>CLEAN AIR AND WATER</td>
<td>10.0250(d)(7); 10.0260(f)</td>
<td>All contracts over $100,000 (unless requirement has been waived by EPA)</td>
</tr>
</tbody>
</table>

In addition to the above required clauses, ASG Procurement Rules give preference to local bidders in construction projects. For contracts valued at $50,000 or less, only local bidders are allowed to participate. For those greater than $50,000, local bidders are given specified add-on percentages. This local preference leads to a greater number of local employees and overall income that is much needed in the Territory. This policy has a direct effect on local stimulation of the economy.

(f) Reconsideration Process

In accordance with Executive Order 03-2021, the ARPA Oversight Office reserves the right to determine which projects will receive funding based on a number of factors including but not limited to ensuring compliance with all federal requirements. The Office, however, recognizes that some of these determinations may adversely affect interested parties. For the purposes of this section, an interested party will be limited to applicants for direct funding opportunities for projects.
A process for reconsideration of denied projects is hereby implemented. For clarity, this process is separate and apart from any procurement disputes subject to the jurisdiction of the Office of the Administrative Law Judge. ASCA 4.0604(f).

Covered Disputes:

The dispute resolution process will be limited to ARPA Oversight Office denials of project awards. As an office of limited purview, the covered disputes identified above shall not be considered final agency decisions for the purpose ASCA 4.0604.

Reconsideration Requests:

Interested parties will have 5 business days from the announcement of awards by the ARPA Oversight Office to file a “Reconsideration Request” with the Director. The announcement of awards will mean each project is “provisionally awarded” the requested ARPA funds.

The request will detail the basis for reconsideration including the project award denial being challenged, how the decision adversely affects the party, how the requested change would benefit the objectives of the American Rescue Plan Act.

A hearing shall be held within 5 days of filing the Reconsideration Request with the Director. The Director shall issue a notice of hearing to the filing party.

The hearing will be conducted by a three-member panel headed by the Director. Panel members will be selected by the ARPA Oversight Office. The panel will have an advisory role, but the ultimate decision-making authority shall be the Director's.

Parties to the dispute may present evidence, materials, and witnesses in support of their claims. The Director will have discretion to limit presentation of evidence, materials, or witnesses.

Upon completion of the hearing, which shall not exceed two hours, the panel will consider arguments and evidence presented in the Reconsideration Request and at the hearing. The Director shall be responsible for rendering a decision on the issues presented within three (3) business days of the conclusion of the hearing. 

(g) Local Certification/Licensing/Permitting

Each project will require adherence to applicable local licensing, certification, and permitting laws. DOC will be responsible for obtaining each necessary approval prior to the start date. A list of these documents as well as copies should be submitted to the ARPA Oversight Office.
(h) ARPA Reporting Requirements

ARPA requires monthly, quarterly and annual reporting to be submitted by the sub-recipients on projects progress and expenditures. The American Samoa ARPA Oversight Office will, therefore, be requesting information from relevant agencies in order to meet the strict deadlines set forth in the US Treasury’s Reporting and Compliance Guide. Each agency must provide the requested information or an explanation as to why information is not available by the time specified by ARPA Oversight Office staff. Failure to do so could jeopardize future funding opportunities. All ARPA infrastructure funding sub-recipients are required to submit Project and Expenditure Reports.

1. **Monthly and Quarterly Reporting**
   - Monthly reports will cover one calendar month and must be submitted to ARPA on the 10th of the month or next business day
   - Quarterly reports will cover one calendar quarter and must be submitted to Treasury within 30 calendar days after the end of each calendar quarter.
   - The table below summarizes the quarterly report timelines for sub-recipients:

3. **Required Information**
   A. Project Status
      a) The project name,
      b) Identification number (created by the recipient),
      c) Project expenditure category (see Appendix 1, Compliance and Reporting Guidance),
      d) Project expense allocation to budget
      e) Description, and status of completion.
         - Not started
         - Completed less than 50 percent
         - Completed 50 percent or more
         - Completed
   Project descriptions must describe the project in sufficient detail to provide understanding of the major activities that will occur, and will be required to be between 50 and 250 words. Projects should be defined to include only closely related activities directed toward a common purpose.
   B. Project Expenditures
      - Current period obligation
      - Cumulative obligation
      - Current period expenditure
      - Cumulative expenditure
   C. Subawards
      The following information is required for Contract, Grant, Loan, Transfer, or Direct Payment greater than or equal to $50,000:
      a) Subrecipient identifying and demographic information (e.g., DUNS number and location)
      b) Award number (e.g., Award number, Contract number, Loan number)
      c) Award date, type, amount, and description
      d) Award payment method (reimbursable or lump sum payment(s))
      e) For loans, expiration date (date when loan expected to be paid in full)
      f) Primary place of performance
      g) Related project name(s)
h) Related project identification number(s) (created by the recipient)
i) Period of performance start date
j) Period of performance end date
k) Quarterly obligation amount
l) Quarterly expenditure amount
m) Project(s)

n) Additional programmatic performance indicators for select Expenditure Categories (see below) Aggregate reporting is required for contracts, grants, transfers made to other government entities, loans, direct payments, and payments to individuals that are below $50,000. This information will be accounted for by expenditure category at the project level.

D. SAM.gov
   • Subrecipients must be compliant with registering and maintaining an active profile on the System for Award Management System (SAM) (https://www.sam.gov)
   • All entities wishing to do business with the Federal Government must have a unique entity identifier (UEI). Currently, the DUNS number, which is a unique nine-character identification number is the official UEI.
   • In registering on SAM.gov you will complete the following steps (details are available on SAM.gov):
     i) Request a DUNS number
     ii) Prepare your data
     iii) Get a Login.gov Account
     iv) Submit and Finish
