ARPA Project Name: Public Building CDC Compliant Program
ARPA Funds: $12,000,000.00

| 1.7 | Capital Investments or Physical Plant Changes to Public Facilities that respond to the COVID-19 public health emergency | $12,000,000.00 |

**Healthcare Sector**

Timeline to implementation: 6 months to 18 months

**Overview**

COVID-19 public health emergency has highlighted major needs and issues in American Samoa that have been neglected for years due to limited resources. In addition, the pandemic has led to new compliance requirements for congregate settings such as workplaces and public facilities to prevent and mitigate COVID-19. Many public buildings and facilities in the territory are not in compliance with CDC standards. This creates a major challenge for the territory in addition to resolving pre-existing issues exacerbated by the pandemic. The poor conditions of public facilities poses a health hazard for ASG workers and the general public caused by poor ventilation system, rodent infestation, water leakage and more. The CDC highly recommends corrective actions and improvements for a safe and healthy environment. ARPA funds allocated for this project is a necessary investment to protect and safeguard the health and lives of the American Samoa people and support efforts and measures to mitigate the spread of COVID-19.

**PROJECT BACKGROUND**

The COVID-19 Public Health Emergency has had a great impact on American Samoa’s public health infrastructure and services, as well as the local economy. The projects identified in this document are to be funded using American Rescue Plan Act (ARPA) funds from the federal Government in accordance with the requirements of the Act.

American Samoa remains the only part of the United States of America and its Territories that has been blessed with zero cases of locally transmitted COVID-19 virus. While we are grateful for this blessing, it was not accidental that American Samoa has remained COVID-19 free. It required tremendous sacrifice by the people of American Samoa to keep their loved ones safe and protected. We are fortunate to have the support and federal assistance of the various COVID-19 relief and recovery funds to help meet the challenges as a result of the COVID-19 pandemic and the public health emergency declaration.

Our leaders drew upon the lessons of our history, specifically the 1918 Spanish pandemic that decimated our neighbors 80 miles to the West that lost an estimated 20% of their population as their borders remained open during the critical early stages of the spread. As a result of the first Public Emergency Declaration in March 2020, American Samoa closed its borders as part of its strategy to mitigate the transmission of the Coronavirus that had grown to become a global pandemic. Our borders remain closed to regular commercial travel and all authorized travel by air or sea follow careful protocols to minimize the risk of exposure or transmission of the COVID-19 virus.
American Samoa has many public facilities that are old and in poor conditions. They require necessary improvements, repairs and renovations to comply with CDC requirements. The lack of funding, poor maintenance and environmental factors have contributed to the present state and conditions of these facilities. ASG workers are exposed to health hazards at an extended period of time at work. This can cause serious health issues or create more severe problems to workers with pre-existing health conditions. These public buildings have poor ventilation systems, rodent infestation issues, poor air flow quality among others. ARPA funds invested in this project will provide the necessary improvements, repairs and renovations to meet CDC standards as well as support strategies and objectives to respond to COVID-19 and its negative economic impacts.

**KEY STAKEHOLDERS**

Public Building CDC Compliant Program project is to be developed and designed ARPA Office with all key stakeholder(s) input and contribution

- Office of the Governor
- Administrative Services
- Historical Preservation Office
- Treasury
- Other branches of Government (Legislative representation)
- Non-profit
- NGO’s
- Private sector representation
- ARPA Oversight Office

(a) COMMUNITY ENGAGEMENT

Community engagement is an essential aspect of ARPA funded projects. The intent of the US Treasury in fostering public participation is to maintain transparency and provide opportunities for feedback to ensure that funds are used in the most beneficial manner.

In keeping with the intent of the US Treasury, the American Samoa ARPA Oversight Office has adopted the following notice and comment timeline for proposed projects:

- A Notice of Proposed Project will be published online, in local newspapers, and via television or radio broadcasts. The Notice will specify that there will be fifteen (15) days for the public to provide comment either in writing or by attendance at scheduled public hearings.
- Concurrent to the publication of the Notice, a draft proposal and scope of work will be published on the ARPA website for the public to review.
- General meetings with the public will be scheduled and publicized within the fifteen (15) days Notice period. Email comments will also be accepted.
- Presentations to the Legislature will be conducted during the Notice period, as needed.
• At the close of the public comment period, the agency will have 20 days to revise the project as appropriate and submit the Final Draft to the ARPA Oversight Office.
• The Final Draft of the Project will be posted for public review once completed and certified by the ARPA Oversight Office.

It is the responsibility of the agency or department in charge to publicize notices and adhere to the stated timelines.

(b) TIMELINE ON PROJECT LAUNCH

ARPA Funds are required by federal statute to be encumbered by December 31, 2024 and spent by December 31, 2026. This mandate makes the need for a definite timeline for completion of projects of critical importance.

The Public Building CDC Compliant Program project must identify the proposed start date, the completion dates of each phase of the project, inclusion of any notice/bid periods for procurement purposes, and an estimated date of completion, along with any other dates relevant to the project progress.

(c) SCOPE OF WORK (Public Buildings CDC Compliant Program)

Each proposed project must be submitted to the ARPA Office with a cover letter addressed to the Executive Director. Submittals must include the proposed plan as detailed below. ARPA will review of eligibility and compliance to the American Samoa ARPA Spending Plan.

Once approved, an award certified letter will be provided verifying the project description and project lead.

Project Lead must provide the following:
   1. Project Description and/or Business Plan
   2. Completed Eligibility Analysis
   3. Scope of Work
   4. Implementation Plan & Timeline
   5. Proposed itemized budget
   6. Project Lead

Define scope of project based on response to COVID-19 pandemic and the public health emergency declaration:

• Project must meet statutory requirements for eligibility:

   1. Project should comply with CDC federal requirements, guidelines, and practices for a healthy and safe workplace and environment in public buildings and facilities
2. Project must be in response to disease itself or harmful consequences of the economic disruptions exacerbated by COVID-19.

3. Project should improve ventilation in congregate settings such as dense worksites and public facilities.

4. Project should respond to COVID-19 public health emergency or its negative economic impacts.

5. Project should support efforts to help mitigate and prevent the spread of COVID-19 in congregate settings.

6. Project should meet pandemic operational needs to implement pandemic mitigation tactics.

7. Project should support isolation and quarantine efforts.

8. Project should implement safety and infection prevention measures in congregate settings or key locations like in workplaces and in public facilities.

10. Project should implement, promote, and encourage the following in public buildings and facilities in response to the pandemic:
    a) Social Distance
    b) Establish Physical Barriers and Partitions
    c) Setting-Up Visual Cues or Signage
    d) Frequent cleaning and disinfection of workspaces and surfaces
    e) Use of Personal Protective Equipment (PPE)
    f) Wearing face coverings or masks
    g) Washing hands with soap and water
    h) Using hand sanitizers

11. Project should address improvements to wastewater treatment in public buildings and facilities.

- Describe the project and how it addresses CDC federal requirements for a healthy and safe workplace and environment in public buildings and facilities.

- Describe the project and how it will improve current conditions in the workplace and in public facilities for eliminating or minimizing health hazards.

- Describe the project and how it will address urgent needs in response to COVID-19 and its negative impacts.
● Describe the project and how it will help minimize and prevent the spread of COVID-19

(d) ITEMIZED BUDGET

Your budget plays a key role in putting your strategy into action in the effectiveness of resources and achieving overall project goals within specified timelines. Your overall budgeting allocation should align with the ASG BUD202 primes format and itemized further to connect to your project’s plan.

Your itemized budget should support and outline your project’s phases or goals and include all related activities during the project’s life and its expenses as well as any income if applicable. It should also highlight limitations and constraints your office predicts and allocate some funds towards this to mitigate these risks and budget for unforeseeable situations.

(e) CONFLICTS OF INTEREST

ARPA requires that a conflict of interest policy must be maintained pursuant to 2 C.F.R. § 200.318(c) and such policy is applicable to each activity funded under this award. Disclosure in writing must be provided for any potential conflict of interest affecting the award in accordance with 2 C.F.R. § 200.112. ARPA also encourages adherence to the ethics rule in any work or transactions related to this award.

(f) LABOR STANDARDS

ARPA encourages strong labor standards and practices to include project labor agreements and community benefits agreements that offer wages at or above the prevailing rate. This includes local hire provisions and also encourages support for procuring those with high labor standards and without recent violations of federal and state labor and employment laws.

(g) ADHERENCE TO ASG PROCUREMENT PROCESS AND REQUIREMENTS

ARPA funds are subject to the Uniform Administrative Requirements, Cost Principles, and Audit Requirements of Federal Awards (2 CFR Part 200). Specifically, these regulations require ASG to follow local procurement laws in using these funds. 2 CFR 200.317. The lead agency for each project (in the case of the new mental health facility and services, this will be DOH) will work in concert within its established Procurement procedures to ensure that all procedures and requirements are followed and documented. All agencies are reminded that ARPA funds will be subject to federal audits.
<table>
<thead>
<tr>
<th><strong>CLAUSE</strong></th>
<th><strong>REQUIRED BY AMERICAN SAMOA ADMINISTRATIVE CODE</strong></th>
<th><strong>APPLIES TO</strong></th>
</tr>
</thead>
<tbody>
<tr>
<td>EQUAL OPPORTUNITY</td>
<td>10.0250(d)(3), 10.0260(c)</td>
<td>All Contracts in excess of $10,000</td>
</tr>
<tr>
<td>DAVIS BACON ACT</td>
<td>10.0250(d)(5)</td>
<td>Construction contracts that exceed $2,000 and when required by federal grant program legislation</td>
</tr>
<tr>
<td>CONTRACT WORK HOURS AND SAFETY STANDARDS ACT</td>
<td>10.0250(D)(6); 10.0260(D)</td>
<td>Construction contracts in excess of $2,000 or contracts in excess of $2,500 which involve employment of mechanics or laborers</td>
</tr>
<tr>
<td>CLEAN AIR AND WATER</td>
<td>10.0250(d)(7); 10.0260(f)</td>
<td>All contracts over $100,000 (unless requirement has been waived by EPA)</td>
</tr>
</tbody>
</table>

In addition to the above required clauses, ASG Procurement Rules give preference to local bidders in construction projects. For contracts valued at $50,000 or less, only local bidders are allowed to participate. For those greater than $50,000, local bidders are given specified add-on percentages. This local preference leads to a greater number of local employees and overall income that is much needed in the Territory. This policy has a direct effect on local stimulation of the economy.

**RECONSIDERATION PROCESS**

In accordance with Executive Order 03-2021, the ARPA Oversight Office reserves the right to determine which projects will receive funding based on a number of factors including but not limited to ensuring compliance with all federal requirements. The Office, however, recognizes that some of these determinations may adversely affect interested parties. For the purposes of this section, an interested party will be limited to applicants for direct funding opportunities for projects.

A process for reconsideration of denied projects is hereby implemented. For clarity, this process is separate and apart from any procurement disputes subject to the jurisdiction of the Office of the Administrative Law Judge. ASCA 4.0604(f).

*Covered Disputes:*

The dispute resolution process will be limited to ARPA Oversight Office denials of project awards. As an office of limited purview, the covered disputes identified above shall not be considered final agency decisions for the purpose ASCA 4.0604.

*Reconsideration Requests:*
Interested parties will have 5 business days from the announcement of awards by the ARPA Oversight Office to file a “Reconsideration Request” with the Director. The announcement of awards will mean each project is “provisionally awarded” the requested ARPA funds.

The request will detail the basis for reconsideration including the project award denial being challenged, how the decision adversely affects the party, how the requested change would benefit the objectives of the American Rescue Plan Act.

A hearing shall be held within 5 days of filing the Reconsideration Request with the Director. The Director shall issue a notice of hearing to the filing party.

The hearing will be conducted by a three-member panel headed by the Director. Panel members will be selected by the ARPA Oversight Office. The panel will have an advisory role, but the ultimate decision-making authority shall be the Director’s.

Parties to the dispute may present evidence, materials, and witnesses in support of their claims. The Director will have discretion to limit presentation of evidence, materials, or witnesses.

Upon completion of the hearing, which shall not exceed two hours, the panel will consider arguments and evidence presented in the Reconsideration Request and at the hearing. The Director shall be responsible for rendering a decision on the issues presented within three (3) business days of the conclusion of the hearing."

(i) LOCAL CERTIFICATION/LICENSEING/PERMITTING

Each project will require adherence to applicable local licensing, certification, and permitting laws. DOC will be responsible for obtaining each necessary approval prior to the start date. A list of these documents as well as copies should be submitted to the ARPA Oversight Office.

(j) ARPA REPORTING REQUIREMENTS

ARPA requires monthly, quarterly and annual reporting to be submitted by the sub-recipients on projects progress and expenditures. The American Samoa ARPA Oversight Office will, therefore, be requesting information from relevant agencies in order to meet the strict deadlines set forth in the US Treasury’s Reporting and Compliance Guide. Each agency must provide the requested information or an explanation as to why information is not available by the time specified by ARPA Oversight Office staff. Failure to do so could jeopardize future funding opportunities.

All ARPA infrastructure funding sub-recipients are required to submit Project and Expenditure Reports.

1. Monthly and Quarterly Reporting

- Monthly reports will cover one calendar month and must be submitted to ARPA on the 10th of the month or next business day
- Quarterly reports will cover one calendar quarter and must be submitted to Treasury within 30 calendar days after the end of each calendar quarter.
- The table below summarizes the quarterly report timelines for sub-recipients:
2. **Annual Reporting**

- The initial Project and Expenditure Report will cover from the date of award to September 30, 2021 and must be submitted to Treasury by October 31, 2021. The subsequent annual reports will cover one calendar year and must be submitted to Treasury by October 31. The table below summarizes the report timelines for sub-recipients.

3. **Required Information**

A. Project Status
   a) The project name,
b) Identification number (created by the recipient),
c) Project expenditure category (see Appendix 1, Compliance and Reporting Guidance),
d) Project expense allocation to budget
e) Description, and status of completion.
   • Not started
   • Completed less than 50 percent
   • Completed 50 percent or more
   • Completed
   Project descriptions must describe the project in sufficient detail to provide understanding of the major activities that will occur, and will be required to be between 50 and 250 words. Projects should be defined to include only closely related activities directed toward a common purpose.

B. Project Expenditures
   • Current period obligation
   • Cumulative obligation
   • Current period expenditure
   • Cumulative expenditure

C. Subawards
   The following information is required for Contract, Grant, Loan, Transfer, or Direct Payment greater than or equal to $50,000:
   a) Subrecipient identifying and demographic information (e.g., DUNS number and location)
   b) Award number (e.g., Award number, Contract number, Loan number)
   c) Award date, type, amount, and description
   d) Award payment method (reimbursable or lump sum payment(s))
   e) For loans, expiration date (date when loan expected to be paid in full)
   f) Primary place of performance
   g) Related project name(s)
   h) Related project identification number(s) (created by the recipient)
   i) Period of performance start date
   j) Period of performance end date
   k) Quarterly obligation amount
   l) Quarterly expenditure amount
   m) Project(s)
   n) Additional programmatic performance indicators for select Expenditure Categories (see below) Aggregate reporting is required for contracts, grants, transfers made to other government entities, loans, direct payments, and payments to individuals that are below $50,000. This information will be accounted for by expenditure category at the project level.

D. SAM.gov
   • Subrecipients must be compliant with registering and maintaining an active profile on the System for Award Management System (SAM) (https://www.sam.gov)
   • All entities wishing to do business with the Federal Government must have a unique entity identifier (UEI). Currently, the DUNS number, which is a unique nine-character identification number is the official UEI.
In registering on SAM.gov you will complete the following steps (details are available on SAM.gov):

i) Request a DUNS number
ii) Prepare your data
iii) Get a Login.gov Account
iv) Submit and Finish
