

CORONAVIRUS DISEASE 2022

Media Release-67 (PSA220071)

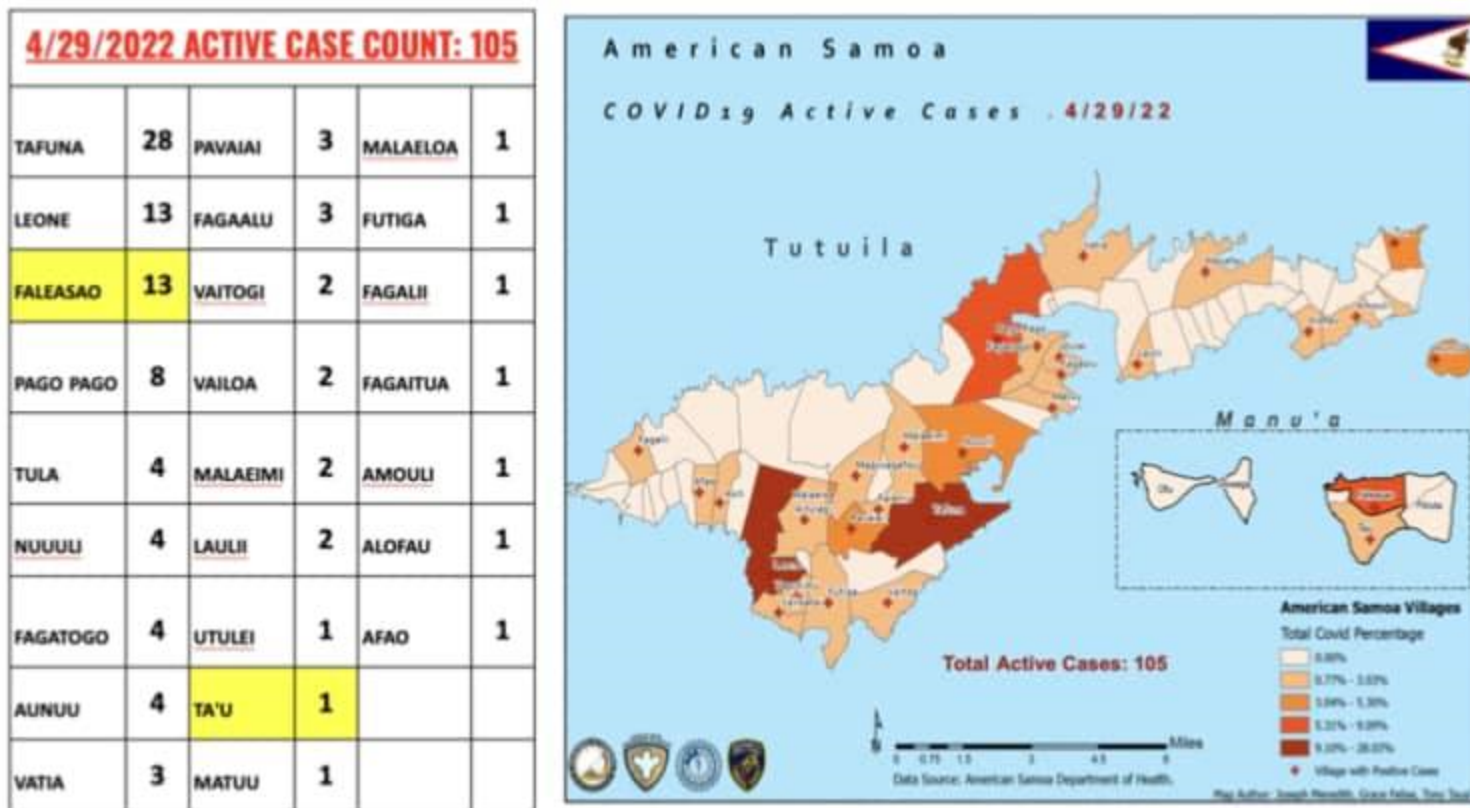

Data as reported by the American Samoa Department of Health by 11:00 AM on April 30, 2022

Situational Summary

5793	26	425	7*	105
Cumulative case count	Cumulative death count	Tests administered in the last 24 hours	New cases in the last 24 hours	Recorded active cases

147**	84.1%	61.6%
COVID-19 vaccines administered in the last 24 hours	% of total population fully vaccinated	% of eligible population boosted (1st booster)

A total of 5,689 individuals who previously tested positive have been released from isolation. Shown below are the number of recorded active cases.

Please continue to practice all prevention measures so that we can live safely from COVID-19. We remind all parents that all students returning to school on Monday, May 2nd, must be fully vaccinated (COVID and routine vaccinations).

A schedule for COVID-19 vaccination, testing, and treatment is forthcoming.

* 3 cases from a previous date have been added to the cumulative count

**166 vaccines were administered on April 28 and not 147 as previously reported
