Public Advisory on Falsified General Memorandum

The Office of the Governor has become aware of a falsified General Memorandum currently circulating on social media platforms. This fabricated document falsely declares the remainder of the week as a holiday and alleges a rematch of the Flag Day fautasi race on Saturday. These claims are not valid.

To verify the authenticity of any document claiming to be issued by the Office of the Governor, we encourage the public to refer to the American Samoa Government website at <https://www.americansamoa.gov/>. All legitimate General Memorandums are promptly posted on the website under the Press/Media section.

The dissemination of false information not only undermines public trust but also causes unnecessary confusion and disruption. We urge all citizens to exercise caution and turn to reliable sources of information when checking the validity of social media posts.
